- SUMMARY

Senior full-stack engineer with **6+ years** shipping production systems across FinTech, EdTech, SaaS, and **AI**. Strong end-to-end on Node.js, TypeScript, Python, and React, with hands-on experience designing AWS infrastructure and leading teams of up to six engineers. Most recently focused on agentic **AI** - voice agents, multi-agent orchestration, and the supporting platform - at Crownstack.

- EXPERIENCE

AI Engineer at Crownstack Technologies

Dec 2025 - Present

NOIDA, SECTOR-3

AI · AGENTIC SYSTEMS

- ▶ Built **Recruiter AI**: a voice agent that places live phone screens over Twilio + Exotel, transcribes in real-time with Deepgram, and produces structured, recruiter-ready evaluations via LangChain.
- ▶ Architected a conversational **Ticket Booking Agent** on LangGraph - multi-agent orchestration with persistent thread state, Django backend, and a TypeScript chat surface.
- ▶ Established the team's AI-engineering conventions: prompt versioning in git, structured-output contracts, and shared eval harnesses.

Python

LangChain

LangGraph

Django

React

Twilio

Deepgram

PostgreSQL

Senior Software Engineer at CheckMinistry

Feb 2025 - Dec 2025

OKHLA PHASE III, DELHI

SAAS · BACKGROUND VERIFICATION

- ▶ Shipped the core of CheckMinistry's enterprise BGV platform - automated workflows, document validation, and real-time status tracking.
- ▶ Led the team to deliver scalable, secure features against tight compliance deadlines.
- ▶ Designed AWS infrastructure end-to-end (EC2, S3, RDS, Lambda, SQS) and the CI/CD pipelines that ship to it.

Node.js

TypeScript

React.js

PostgreSQL

AWS

Senior Software Engineer at DistrictD

Nov 2021 - Jan 2025

NOIDA, SECTOR-2

FINTECH · WEALTH MANAGEMENT

- ▶ Led a ground-up rewrite of the platform on a modern stack - cut page-load times and unblocked the analytics roadmap.
- ▶ Owned **Avendus Wealth** end-to-end - an analytics & PPT/PDF reporting platform - plus one other major release.
- ▶ Managed a team of **6 engineers** and collaborated cross-functionally on key initiatives.
- ▶ Ran R&D on React Native rendering and Node.js worker threads; rolled findings into team performance guidelines.

React.js

TypeScript

CI/CD

Web Developer at ProProfs

NOIDA, NSEZ

Mar 2020 - Nov 2021

EDTECH · SAAS

- ▶ Built and maintained responsive web apps for a widely-used EdTech platform.
- ▶ Shipped customer-facing features across the core product.
- ▶ Partnered with design and product on full-stack feature delivery.

React Node.js MySQL HTML / CSS

- SELECTED PROJECTS

Recruiter AI VOICE AGENT · 2025

github.com/nandankmr/RecruiteAI ↗

AI agent that places real phone calls, screens candidates end-to-end, and writes structured evaluations. Bi-directional WebSocket telephony with sub-second turn latency.

React · Python · LangChain · Twilio · Deepgram · Sarvam.ai · PostgreSQL

Conversational Ticket Booking Agent MULTI-AGENT · 2025

github.com/nandankmr/EventAI ↗

Chat-driven agent that discovers what you want to watch and books it without leaving the conversation. LangGraph orchestration with persistent thread state.

Django · LangGraph · OpenAI · TypeScript

- SKILLS

BACKEND	Node.js	Nest.js	Express	TypeScript	Python	Django	
FRONTEND	React.js	Next.js	React Native	Tailwind	Material UI	HTML / CSS	
AI & AGENTS	LangChain	LangGraph	OpenAI	ChromaDB	Deepgram	Sarvam.ai	Claude Code
DATA	PostgreSQL	MySQL	Redis	Sequelize	SQLAlchemy		
CLOUD / DEVOPS	AWS (EC2 · S3 · RDS · Lambda · SQS)			Elastic Beanstalk	Docker	CI/CD	Linux
PRACTICE	Team management	Code review (ESLint / Husky)			MVC architecture	Git	

- EDUCATION

Master of Computer Applications

Jan 2021 - Sep 2023

Jain University · Bengaluru

Bachelor of Computer Applications

Mar 2016 - Dec 2020

S.R.K.G. College · Sitamarhi

NANDAN KUMAR · SENIOR FULL-STACK & AI ENGINEER
